

COOKIES

A cookie is a small piece of data (text file) that a website – when visited by a user – asks your browser to store on your device in order to remember information about you, such as your language preference or login information. Those cookies are set by **Ferrocarrils de la Generalitat de Catalunya (FGC)** and called first party cookies. We also use third party cookies – which are cookies from a domain different than the domain of the website you are visiting – for our advertising and marketing efforts.

More specifically, we use cookies and other tracking technologies for the following purposes:

- Assisting you in navigation;
 - Assisting in registration to our events, login, and your ability to provide feedback;
 - Analyzing your use of our products, services or applications;
 - Assisting with our promotional and marketing efforts. (including behavioral advertising)
-

The following domains are owned by Ferrocarrils de la Generalitat de Catalunya (FGC):

www.fgc.cat, www.lamolina.cat, www.valldenuria.cat,
www.cremallerademontserrat.cat, www.skipallars.cat, www.vallter2000.cat,
www.trendelciment.cat, www.trendelsslacs.cat, www.eltrendelensenyament.cat, and
turistren.cat

Below is a detailed list of the cookies we use on our Website. We classify cookies in the following categories:

- Strictly Necessary Cookies
 - Performance Cookies
 - Functional Cookies
 - Targeting Cookies
-

Strictly Necessary Cookies

These cookies are essential in order to enable you to move around the website and use its features, such as accessing secure areas of the website. Without these cookies services you have asked for, like shopping baskets or e-billing, cannot be provided.

Performance Cookies

These cookies collect information about how visitors use a website, for instance which pages visitors go to most often, and if they get error messages from web pages. These cookies don't collect information that identifies a visitor. All information these cookies collect is aggregated and therefore anonymous. It is only used to improve how a website works.

Functionality Cookies

These cookies allow the website to remember choices you make (such as your user name, language or the region you are in) and provide enhanced, more personal features. For instance, a website may be able to provide you with local weather reports or traffic news by storing in a cookie the region in which you are currently located. These cookies can also be used to remember changes you have made to text size, fonts and other parts of web pages that you can customise. They may also be used to provide services you have asked for such as watching a video or commenting on a blog. The information these cookies collect may be anonymised and they cannot track your browsing activity on other websites.

Targeting/Advertising Cookies

These cookies are used to deliver adverts more relevant to you and your interests. They are also used to limit the number of times you see an advertisement as well as help measure the effectiveness of the advertising campaign. They are usually placed by advertising networks with the website operator's permission. They remember that you have visited a website and this information is shared with other organisations such as advertisers. Quite often targeting or advertising cookies will be linked to site functionality provided by the other organisation.

DSID	Targeting/Advertising	This cookie, stored at Google.com is used for advertising Google serve across the web. Its main purpose is to show you more relevant ads.	Google - Doubleclick	2 weeks	✓	
DV	Targeting/Advertising	This cookie is set by Google to build a profile of the website visitor's interests and show relevant ads on other sites.	Google	1 hour		

Name	Purpose	Description	Owner	Expires / Max-Age	HTTP	Secure
HSID	Targeting/Advertising	This cookie is set by DoubleClick (which is owned by Google) to build a profile of the website visitor's interests and show relevant ads on other sites.	Google - Doubleclick	2 years	✓	
IDE	Targeting/Advertising	This cookie carries out information about how the end user uses the website and any advertising that the end user may have seen before visiting the said website.	Google - Doubleclick	1 year + 1 month	✓	
NID	Targeting/Advertising	This cookie is set by DoubleClick to help build a profile of your interests and show you relevant ads on other sites.	Google - Doubleclick	6 months	✓	
PHPSESSID	Strictly Necessary	Cookie generated by applications based on the PHP language. This is a general purpose identifier used to maintain user session variables. It is normally a random generated number, how it is used can be specific to the site, but a good example is maintaining a logged-in status for a user between pages.	System	session		
SAPISID	Targeting/Advertising	This DoubleClick cookie is generally set through the site by advertising partners, and used by them to build a profile of the website visitor's interests and show relevant ads on other sites. This cookie works by uniquely identifying your browser and device.	Google - Doubleclick	2 years		✓
SID	Strictly Necessary	This is a very common cookie name but where it is found as a session cookie it is likely to be used as for session state management.	Google	2 years		
SIDCC	Targeting/Advertising	This cookie carries out information about how the end user uses the website and any advertising that the end user may have seen before visiting the said website.	Google	3 months		
SSID	Targeting/Advertising	This cookie carries out information about how the end user uses the website and any advertising that the end user may have seen before visiting the said website.	Google	2 years	✓	✓
UULE	Targeting/Advertising	Cookie associated with the Google Maps service. It allows the geolocation of our laboratory in the corresponding section of this website.	Google - Maps	2 days		
_cfduid	Strictly Necessary	Cookie associated with sites using CloudFlare, used to speed up page load times. According to CloudFlare it is used to override any security restrictions based on the IP address the visitor is coming from. It does not contain any user identification information.	CloudFlare	6 months	✓	
_utma	Performance	This is one of the four main cookies set by the Google Analytics service which enables website owners to track visitor behaviour and measure site performance. This cookie lasts for 2 years by default and distinguishes between users and sessions. It is used to calculate new and returning visitor statistics.	Google Analytics	1 year + 8 months		
_utmb	Performance	This is one of the four main cookies set by the Google Analytics service which enables website owners to track visitor behaviour and measure site performance. This cookie determines new sessions and visits and expires after 30 minutes. The cookie is updated every time data is sent to Google Analytics.	Google Analytics	session		
_utmc	Performance	This is one of the four main cookies set by the Google Analytics service which enables website owners to track visitor behaviour and measure site performance.	Google Analytics	1969		
_utmt	Performance	This cookie is set by Google Analytics. According to their documentation it is used to throttle the request rate for the service - limiting the collection of data on high traffic sites. It expires after 10 minutes	Google Analytics	session		
_utmz	Performance	This is one of the four main cookies set by the Google Analytics service which enables website owners to track visitor behaviour measure of site performance. This cookie identifies the source of traffic to the site - so Google Analytics can tell site owners where visitors came from when arriving on the site. The cookie has a life span of 6 months and is updated every time data is sent to Google Analytics.	Google Analytics	2 months		

Name	Purpose	Description	Owner	Expires / Max-Age	HTTP	Secure
_da_gtm_UA-XXXXXXX-XX	Targeting/Advertising	Is set by Google Analytics to keep track of how many times a user visits our sites, how the user came to us, and in what country the user is located. The cookie also calculates an end time of each session.	Google Analytics	1 hour		
_fbp	Targeting/Advertising	Used by Facebook to deliver a series of advertisement products such as real time bidding from third party advertisers	Facebook	3 months		
_ga	Performance	This cookie is used to distinguish unique users by assigning a randomly generated number as a client identifier. It is included in each page request in a site and used to calculate visitor, session and campaign data for the sites analytics reports. By default it is set to expire after 2 years, although this is customisable by website owners.	Google Analytics	2 years		
_gali	Functionality	Google Analytics - Used to distinguish users.	Google Analytics	session		
_gcl_aud	Targeting/Advertising	Used by Google AdSense for experimenting with advertisement efficiency across websites using their services.	Google Ad Sense	3 months		
_gid	Performance	Google Analytics. Used to distinguish users.	Google Analytics	2 days
